

To Whom It May Concern:

Tropic Star Lodge and Tropic Express have been using the “De-Bug” products for over two years on our extensive fleet of yachts, generators, trucks and other vehicles. Our yachts are equipped with Detroit 4-53 natural aspirated engines and with the use of de-bugs, we have increased our engine time between overhauls from 3000 hrs. to 4500 hrs, with very little mechanical down time and almost no major engine failures. This means that our clients do not miss any fishing time and much more savings on our spare engine parts. Within this time, our companies have saved a lot of diesel fuel also.

We highly recommend and endorse these fine products.

Sincerely,

A handwritten signature in blue ink, which appears to read "Joe Andrews", is written over a light yellow horizontal band.

Joseph M. Andrews
Chief Engineer and CEO
